# About Us

## Supporting you with a comprehensive range of professional flying insect management systems

PestWest products are significant part of several Leadership in Environmental and Energy Design (LEED) accreditation programs. Contact us for details.

It isn't magic that brings excellence to a company; excellence is the result of commitment and hard work by dedicated and experienced people. Whether we're talking about products or processes, no wizardry or easy formulas will solve the challenges of tomorrow, our people will.

PestWest cares about its employees and customers and understand that both are the foundation of our success.

We appreciate your continued support!

3-YEAR WARRANTY (LAMPS, STARTERS & GLUE BOARDS ARE EXCLUDED)

TO ORDER YOUR PESTWEST PRODUCTS ONLINE:

**[WWW.ORDERING.PESTWEST.COM](http://WWW.ORDERING.PESTWEST.COM)**

Recycle your fluorescent lamps using the PestWest Mad Hatter pollution prevention program.

RECYCLING MADE EASY! See pages 35 - 36

# Insect Light Traps (Glue board systems)

Find us on:  Twitter  Facebook  LinkedIn

## High quality systems utilizing advanced glue board technology

### EFFECTIVE

PestWest Quantum lamp uniquely designed for maximum efficacy. 40% more attractive to flies than BL350 Lamps.

### DURABLE

Metal construction are UV resistant, giving you long lasting systems for reliable service.

### ENVIRONMENTALLY RESPONSIBLE

PestWest Quantum lamps are LEAD FREE and low Mercury (Hg), for low environmental impact.

### ECONOMICAL

Large full size glue boards are conveniently interchangeable with most of the Mantis® line.

### VERSATILE

Available in stainless steel, white, black or customized. Stainless steel systems are perfect for sensitive areas such as: food handling, processing and medical facilities.

## Mantis<sup>®</sup> 1x2 DISCRETION COVER

### Transform your Mantis 1X2 with a discretion cover

The discretion cover is an option to make any 1X2 (after 2012 models only) a discreet insect light trap suitable for any public area. Retro fits easily with no additional tool required. See below for easy install instructions:

#### DIMENSIONS

H: 8½" (22cm) W: 18½" (47cm) D: 2½" (12.7cm)

#### WEIGHT

2 lb (1 kg)

### Easy to replace!

Always unplug system before attempting any maintenance or retro fit.

Remove bottom tray and carefully

remove the front grill by slightly bending the tabs at the base of the grill outward from the punched holes and pull away.

Reverse the action with the new

discretion cover.

Your new 1x2 discretion is ready to go to work.

## TITAN<sup>200</sup> IP

### Robust Outdoor System

With a splash-proof rating to IPX4, easy installation, and low operational costs, Titan 200 IP's weather-proof design is optimal for ranches with livestock, zoos, orchards, golf courses, and many other outdoor areas.

#### DIMENSIONS

H: 18½" (47cm) W: 11¾" (30cm) D: 11¾" (30 cm)

#### WEIGHT

11 lb (5kg)

#### POSITION

Suspended / Freestanding

#### SHIPPING INFORMATION

Net Unit: Each Shipping weight: 13 lb (6 kg)

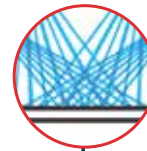

#### REPLACEMENT PARTS

1 x 18 Watt CFL 4 pin Lamp

Standard: TUB18W521/130-000243

Shatter resistant: TUB18W522/130-000247

IP 4

Protected against water jets from anywhere  
Dust tight. No ingress of dust.

OUTDOOR

1X18W

3

Environmentally responsible, robust and powerful, the Titan 200 IP is engineered with a metal casing and quality industrial transformer. Optimal eradication of flying insects for years to come. Servicing is quick with easy access to both the catch-tray and powerful 18 Watt CFL lamp.

**Specialist systems designed for high moisture and large open areas, or potential dust and gas explosion environments.**

## **IP RATED**

Ingress protection protect against dust & water.

## **DURABLE**

High grade metal constructions built for harsh environments.

## **SAFETY**

Systems for potentially explosive environments are ATEX compliant for use in combust dust or gas environments.

## **ENVIRONMENTALLY RESPONSIBLE**

PestWest Quantum lamps are LEAD FREE and low Mercury (Hg), for low environmental impact.

## Mantis® 4x4 EX

### Industrial system for potential dust or powder explosion environments

- Meets all safety legislation: FDA, USDA, UL1559 and European safety standard EN60335-2-59 for insect control equipment
- Independently tested: IP65 (Dust tight, protected against water jets), compliant with Euro-norm PREN 50281-1-1 for potentially explosive atmospheres and satisfies all current EMC standards and NEC Division Code Class II, Division II.

- Suitable for Zone 22 areas (atmosphere with combustible powder or dust), satisfying EN 50014:1994.
- 4x40W 24" T12 (1½") Quantum Lamps: 360° coverage and maximum performance
- Reflectobakt® sleeve: extending glue board life
- Industrial double-sided glue board: provides 926sq. inch of protection
- **Hardwire. Should be installed by a qualified electrician for sensitive environments.**

## Chameleon<sup>®</sup> EXG

### Protection in dust and gas explosive environments

- For use in petrochemical and pharmaceutical industries, distilleries, dairies, flour and sugar mills, and many others.
- Tested to be compliant with ATEX Directives 99/92/EC and 94/9/EC: suitable for use in Zones 22 & 21 (atmospheres with combustible dust or powder), Zones 2 and 1 (atmospheres with flammable gases or vapors), IP66 rating.
- Anti-corrosive construction: 304 brushed stainless steel, marine grade aluminum alloy, and a flameproof glass enclosure that prevents the transfer of a potential explosion to the surrounding area.

- 2x18W 24" T8 (1") Quantum Lamps: 180° coverage and optimum performance.
- FDA compliant FEP shatter resistant coating: protection in glass-free zones
- Adjustable glue board holders: allowing confined space placements as well as flexibility to move glue boards closer to the UVA light source
- Automatic switch off-on opening mechanism: simple & safe service
- Dual voltage ballast: suitable for 110v-220v environments
- **Hardwire. Should be installed by a qualified electrician for sensitive environments.**

# Replacement Glue Boards

Find us on:  Twitter  Facebook  LinkedIn

## Variety of glue boards

### NO WARPING

Double sealed, front & back, protecting against moisture absorption in steamy or high moisture environment.

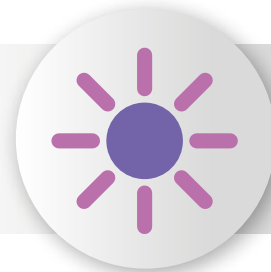

### SPECIAL GLUE

Non-tacky glue, leave no mess on your hand if accidentally touched.

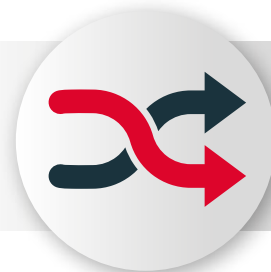

### UV RESISTANT

UV resistant formula, last 60 days when in use.

### VERSATILE

Variety of glue boards for different purposes. Plastic glue board for water proof, gray matrix glue board for easy counting, universal glue board fits in most insect light traps in the market.

# Replacement Glue Boards and Reflectobakt®

Find us on: Twitter Facebook LinkedIn

Over the years, the industry has used black as a standard color for their boards to conceal the catch.

However, as pest management has evolved into a more sophisticated science its needs have changed and so have the board matrix types. The variety glue boards we offer are:

• **Classic premium glue boards (BOACHA850/135-000047)**

for some of the largest catch surface areas in the market, enabling a greater catch per board. This board is interchangeable with most of the Mantis ILT systems

- Thicker than most boards on the market and with a coating to reduce warping and moisture absorption
- Lasts for 60 days in PestWest systems
- The glue boards are positioned so that they sit closer to the UV lamp than other models, providing a more rapid catch.

• **Gray grid matrix glue boards / (BOAMAN867/135-000063)**

for easy insect counting and monitoring. Boards can be retained to provide an accurate record for HACCP audits.

• **Premium plastic glue boards (BOAMAN872/135-000048)**

ideal for high moisture areas.

• **4x4 glue boards (BOA4X4881/130-000053)**

are industrial sized, 926sq. inch (23 3/4" x 19 1/2", 2-sided) glue boards for the Mantis® 4x4 and 4x4EX for extra protection.

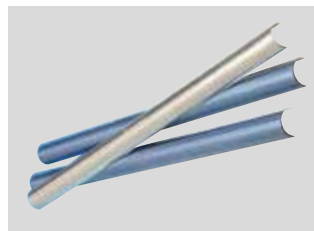

• **Chameleon® EXG Glue board (130-000050)**

Made with fire-retard material for use in combust environments. Gray grids for easy insect counting.

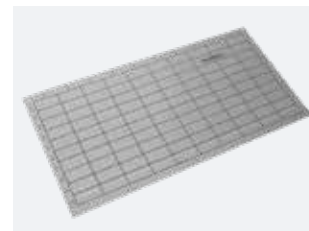

• **Sunburst® white, black and translucent glue board**

White glue board: 135-000049 Black glue board for a concealed look: 135-000074 Translucent glue board lets the light shine through for a whole new look! 135-000079 (see image in page 17).

• **Reflectobakt®**

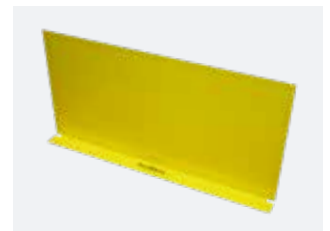

Thin designs and longer lasting glue boards are made possible thanks to the Reflectobakt® sleeve available in T5 (5/8"), T8 (1") and T12 (1 1/2"). This sleeve shields the full-sized glue board from the drying effect of the UV light, thus making the systems more effective for longer periods of time.

• **LED range specific glue board (135-000226)**

This Gray matrix replacement glue board is unique for Mantis® Qualis, Sirius X & On Top Pro X LED range. Specially formulated glue for use in LED insect light traps to enhance fly catch rate & 12% more capture area than our classic & universal glue boards.

**Replace only with this LED glue board for optimal performance and easy counting**

• **flyDetect® ultra yellow glue board (135-000209)**

Specifically designed for use in the flyDetect® system to provide both glue board image quality and accurate fly counts. Replacing **only** with this glue board!

**NOTE: Don't throw the Reflectobakt sleeves away! Remove them from the spent lamps and place them on the fresh replacement lamps for optimal performance.**

**How to remove glue? Use vegetable based oil on the glued surface.**

# Glue Boards for insect light traps

Find us on:  Twitter  Facebook  LinkedIn

## Helpful Hint

To get versatility out of our traps, use a Demi-Diamond pheromone glue board on top of the Mantis® glue boards. You don't lose any capture surface area AND you add value and have a multifunctional trap!

Upgraded  
with  
**40%**  
more glue  
coverage

Made in  
**U.S.A.**

The PestWest® Universal Glue Boards are available in both discreet black and "high definition" white and have been used in a wide variety of applications even OUTSIDE of the light trap.

Used around homes and restaurants as an insect monitor, around plumbing monitoring insect access spots

(scorpions, brown recluse etc) captures small invasive vertebrates, among many other uses. Certainly the preferred board for all non-chemical applications and is your watch-dog when you're not on the scene.

Directions for use are available in English and Spanish.

## The PestWest Universal glue boards fits these models:

**Universal black 12-pk: 135-000203**  
New with ready-to-ship cardboard packaging

**Universal black 6-pk:**  
BOAMAN853/135-000070

**Universal white 6-pk**  
BOAMANWT/135-000064

# Full Line of Replacement UVA Lamps

Find us on: Twitter Facebook LinkedIn

**100% MORE EFFECTIVE  
40% MORE POWERFUL  
THAN STANDARD UV LAMPS**

## LIKE YOU, PESTWEST BELIEVES THAT WE OWE IT TO OUR CUSTOMERS TO SUPPLY THEM WITH THE BEST.

Scientific studies demonstrate that the visual physiology of House fly is highly responsive to 365 to 370 nm UVA light. For over 20 years, and in the years to come, PestWest is your best provider of the high quality and robust Mantis® range of insect light traps, Quantum® 365 nm fluorescent lamps, and fluorescent lamp specific glue boards.

Insect light traps with narrow beam angle point source UVA LED lamps may never possess the fly responsiveness and attraction of insect light traps with fluorescent lamps. However, the new Mantis® Qualis, with novel Quantum® X 370 nm filament UVA LED technology, has consistently demonstrated an equivalent fly responsiveness and attraction to that of insect light traps with fluorescent lamps. PestWest is now your best provider of the Mantis® Qualis LED insect light trap, novel Quantum® X 370 nm filament UVA LED lamps, and filament LED lamp specific glue boards.

BL 350s lamps are also available. We use the highest quality shatter resistant material for your protection and maximum insect attraction.

**Always ensure that you lamps are at room temperature at start-up. Fluorescent lamps left in cold environments take longer to start**

### Features and Benefits of the PestWest Quantum lamps

- 100% Lead free lamps for a safer environment
- Comes in standard and shatter resistant for safe use in the food industry
- The shatter resistant material that is used is guaranteed to not flake, melt, discolor, or drip to keep the consistently high quality of the lamps intact
- The UV output of PestWest Quantum lamps is greater with more UV being irradiated after 4,000 hours of use than the BL350's, for increased life span and efficiency of your systems
- PestWest offers a wide range of lamps including the new ultra T5 lamps which when compared to the T8 and T12 lamps could save you up to 40% on your systems electrical bill
- PestWest offers a wide range of lamps, if you don't see anything from here, please give us a call at 866 476 7378.

## The Mad Hatter® Pollution Prevention Service

### SAFE REMOVAL OF MERCURY

Mercury in fluorescent lamps is responsibly recycled at the professional recycling facility.

### SAFE REMOVAL OF LEAD

Lead in fluoresce lamps is responsibly recycled at the professional recycling facility.

### COMPLIANT WITH REGULATIONS

Regulations varies in states to recycle fluorescent lamps. Responsibly recycle and stay compliant with your local regulations.

### ENVIRONMENTALLY RESPONSIBLE

Prevent toxic metal that is hazardous to both the environment and public health.

### EASY PROCESS

Simply fill the used lamps into the recycle box, use the shipping label included to send to the nearest recycling facility.

# Mad Hatter® Lamp Recycling Box Program

Find us on: Twitter Facebook LinkedIn

## SPENT FLUORESCENT LAMP RECYCLING IS AS EASY AS 1-2-3

As a Nation we know that Mercury is a toxic metal that is hazardous to both the environment and public health.

There are well over 500,000,000 spent lamps thrown into the dumpster every year. Not only is this illegal but it also causes more mercury contamination of the environment than any other consumer product.

The Mad Hatter® Lamp recycling service is a cost-effective and responsible pollution prevention service that is a simple to use box program, specifically designed to make recycling of your spent lamps easy. The program ensures that smaller quantities of spent fluorescent lamps are sent for recycling in accordance with federal, state and local regulations.

- One price includes everything you need - saving you hundreds of dollars on your recycling costs
- Convenience for smaller quantities of lamps - this program will save you money
- Ideal for facilities with storage limitations - no need to wait for large quantities of lamps to build up
- Allows you to purchase recycling services based on your individual needs

### A single 4' fluorescent lamp has the potential to contaminate a 20-acre lake, with its mercury content beyond a safe level for drinking.

With one call to PestWest, the Mad Hatter® box, designed specially for smaller quantities of lamps, will be shipped to you to fill with spent lamps. This box comes complete with a return shipping label and complete instructions. Once the lamps are recycled a certificate of recycling will be mailed to you.

PRODUCT CODE	PRODUCT DESCRIPTION	NET UNIT	SHIPPING WEIGHT
PWE002 / 355-000002	(Medium box) 8.5" x 8.5" x 48" box holds 60-75 approx (based on T8/24")	Each	3.5 lb
PWE003 / 355-000003	(Large Box) 12" x 12" x 48" Large box holds 146 approx (based on T8/24")	Each	4 lb

**Mercury is an essential component of fluorescent lights including 'Green Tip' and Compact Fluorescent (CFL) lamps - therefore all fluorescent lamps must be managed correctly when they are removed from service.**

## Biological cleaning sanitation program perfect for use in drain, floor, dumpster and many more surfaces

### **BIOLOGICAL**

Put billions of microbes to work. Bio-Gel+ products target greases, fats, oils and proteins and carbohydrates.

### **BIODEGRADABLE**

It breaks down to water and CO2, leaves behind a fresh scent.

### **CONTAIN NO PATHOGENS SALMONELLA FREE**

### **ENVIRONMENTALLY RESPONSIBLE**

Contains no pesticides nor harsh chemicals.

### **NON-TOXIC NON-CORROSIVE**

# Bio-Gel® Cleaning Products

## An easy-to-use powder that reduces organic waste

- Developed to reduce organic waste in barns, coups, stalls, manure piles/heaps, houses, kennels, cages, litter, bedding, drain sewers, municipalities, towns and cities, waste water treatment plants (land and cruise ship based) and reduces foul odors from lagoons and retention ponds.
- Bacillus and Pseudomonas bacterial blends to digest inanimate mass.
- These bacteria have the exceptional targeted enzyme production of lipase, protease, amylase, cellase, urease, pectinase, and chitinase, to speed the degradation and digestion of fats, carbohydrates, proteins, cellulose and starches.
- Formulated on a food-ready base accelerant to jump start the binary fission process.
- Available in 15 lb Bulk (**Blue lid**) & 30-8oz water soluble throw packs (**Green lid**).

Designed to eliminate stains including urine, feces, blood & odors from cats, dogs and most other animals.

bacteria-based formula produces enzymes when it comes in contact with bio-based "messes" to target urine and feces and freshens with a light, pleasing fresh scent.

- Piddle Pal microbes bind to odor molecules. This is not a masking agent.
- Works on pet bedding, carpets, automobiles, public

## Piddle Pal<sup>™</sup>

toilets, assisted living facilities and many, many more.

- Great as a value add-on.
- Targeted urine, feces, odor destroyer.
- Tough on strong dog urine and the yellow, sticky residue.
- Freshens with a light, fresh pleasing scent.
- Safe to use on carpets, hard floors, furniture, fabrics and more.
- Flip top and ready to use container.
- Test in an inconspicuous area prior to broad use.

Made in the U.S.A.

**Integrated pest management is a programmatic approach, which embraces a cyclical process of inspection, assessment, and control.**

## **INSPECT**

Inspect for conducive conditions that sustain pest populations and the subtle evidences of pest activity.

## **ASSESS**

Assess for pest identifications and tolerance levels.

## **CONTROL**

Control pests through behavioral, physical, mechanical, bio-rational, and chemical methods, while monitoring control methods to evaluate effectiveness.

**VIDEO ONLINE**

For your CSI kit video, scan here or go to:  
<https://www.youtube.com/watch?v=glb98afdOw8>

Also sold separately for training purposes

The CSI kit uses a specialty blue light in conjunction with orange goggles to contrast proteins from bed bugs, blood, feces, caste skins and eggs.

- Cutting your inspection time by hours, use the blue-light with orange goggles to visualize latent signs and other physical infestation evidence.
- The blue LED flashlight: made of Aerospace-grade aluminum tempered Pyrex Lens; w/ Mil-Spec Type III hard-anodized; Shock tested with a drop test of ten feet.
- Rechargeable battery.
- Bed bug life cycle disc: actual eggs, nymphs and both female and male adults can be viewed at a glance providing an illustration of bed bug life cycle.

## Contrasting Specimen Inspection (CSI) Kit Professional Bed bug Detection

### Kit includes:

- One (1) blue high intensity rechargeable flashlight
- One (1) pair of orange filter premium goggles
- One (1) pair of needle nose forceps
- Three (3) specimen 4x magnifiers
- Live hinge carrying case
- One (1) Bed Bug specimen life cycle ID disc
- Replacement components are readily available.

PRODUCT	PRODUCT CODE	Qty/Case	SHIPPING WEIGHT

## Fluorescent UV lamps stop producing UV light long before their blue visible light declines

The PestWest UV-A Meter is easy-to-use, enabling you to monitor the condition and quality of fluorescent UV lamps in any electronic flying insect light system so that you get the best results.

## PestWest UV-AMETER

- The pocket size UV-A Meter is the perfect tool, Measuring ambient light first, then accurately measuring the UVA direct from your system.
- Great for new accounts that have existing systems (who knows when the lamps were changed last?) and monitoring systems throughout the year
- Standard fluorescent UV lamps need to be changed annually. However, this may be more frequent if exposed to sensitive areas or natural sunlight.

## AF DEMI DIAMOND® & PHEROMONE

Cost effective walk-by monitoring systems for Fruit fly, Indian Meal Moth or Webbing Clothes Moth.

- Cost effective: reusable station, no electricity consumed.
- Inspection at a glance: placed on wall mounted surface or underneath bar tops.
- 3 combo packs are ready to use (Fruit fly, IMM pheromones and Webbing CM pheromones)
- *Plodia* and *Espehstia* pheromone glue boards: slow release technology lasts between service intervals.
- 30 ml bait lure reservoir: at the bottom of station to add target pest lure.
- **Add pheromone glue boards to any PestWest ILT glue board to increase attraction for target pest.**
- Glue board colorations: provide contrasting, easy insect ID (moth glue boards feature a square grid pattern to assist trends analysis)
- Ideal for food processing plants and warehouses, hospitals, clinics, supermarkets, pet stores, restaurants, delis, convenience stores, schools, residential homes, and many more.
