

Fluorescent UV lamps stop producing UV light long before their blue visible light declines

The PestWest UV-A Meter is easy-to-use, enabling you to monitor the condition and quality of fluorescent UV lamps in any electronic flying insect light system so that you get the best results.

PestWest UV-AMETER

- The pocket size UV-A Meter is the perfect tool, Measuring ambient light first, then accurately measuring the UVA direct from your system.
- Great for new accounts that have existing systems (who knows when the lamps were changed last?) and monitoring systems throughout the year
- Standard fluorescent UV lamps need to be changed annually. However, this may be more frequent if exposed to sensitive areas or natural sunlight.
