

Chameleon[®] EXG

with QUANTUM[®] X LED technology

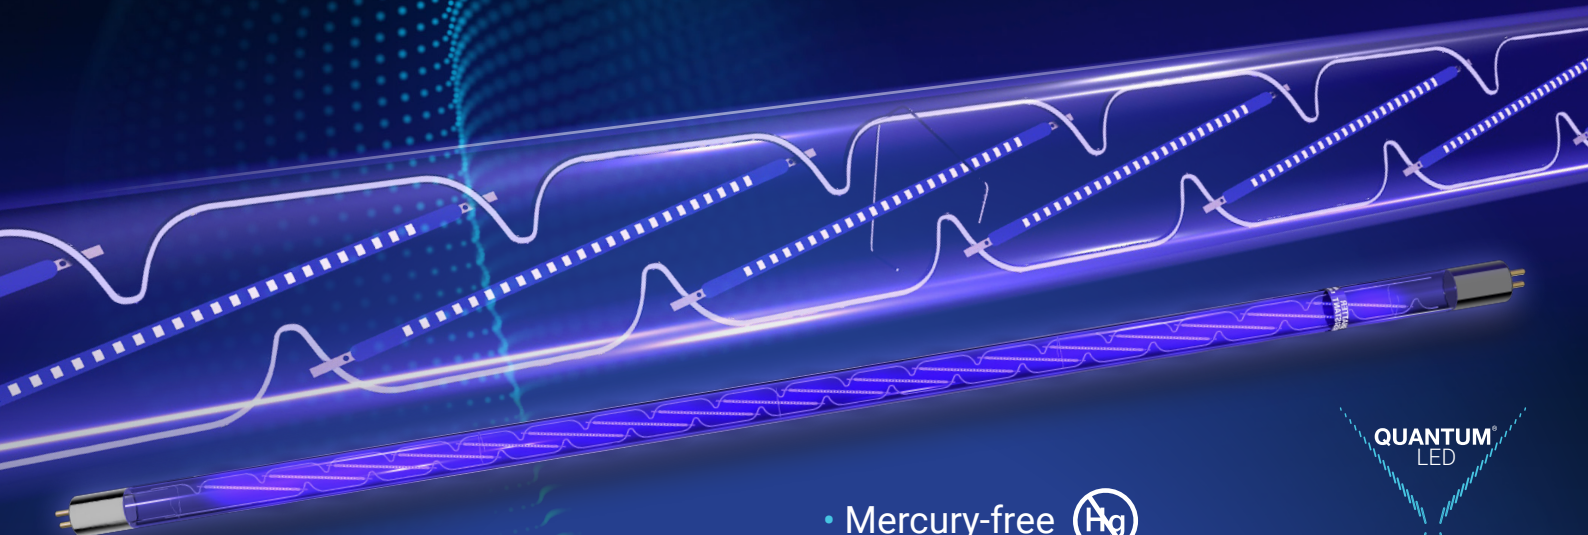

The new Chameleon[®] EXG X system is ATEX compliant. It can be installed within facilities where high-concentration gas and dust zones exist. Facilities such as distillery, sugar processing, pharmaceutical, and petrochemical plants.

The Chameleon[®] EXG X design complies with ATEX standards (ATEX Directives 99/92/EC and 94/9/EC). 304-brushed stainless steel and Marine-grade aluminum alloy construction provides corrosion-resistance.

Designed for use in ATEX Zones 2, 1, 22, and 21.

Includes two Quantum[®] X LED filament shatter-resistant lamps intensified by a polished aluminum reflector as well as two large Quantum[®] X LED system glue boards.

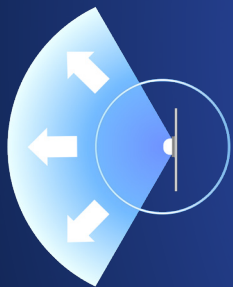

QUANTUM[®] X LED Lamp Technology

QUANTUM[®] LED

- Mercury-free (Hg)
- Environmentally responsible
- FEP shatter-resistant coating

360°
UV BEAM
Quantum[®] X
filament LED

OTHER LED LAMPS
RESTRICTED 120°-180° BEAM

The Quantum[®] X difference.

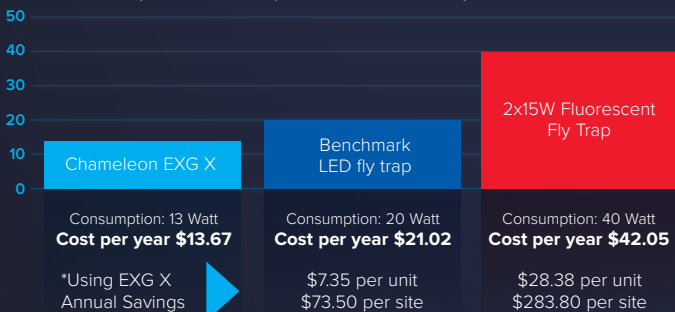

- Unrivalled distribution of UVA LED light significantly improving flying insect management.
- Minimal energy consumption without any dimming – typically over 35% less than other LED technologies.
- Lower environmental impact: zero Mercury content & 3-year lamp lifespan.

A unique design, lightyears ahead of the rest.

- No UV spots as with traditional LED chip technology used by other manufacturers. These can be uncomfortable for people and too intense for attracting flies.
- Unique LED cooling system using Helium gas assures maximum reliability and longer lasting performance.
- FEP shatter-resistant coating contains all lamp materials in the event of impact breakage.

ENERGY SAVINGS

Comparison of power consumption in Watts

*Calculated with an average cost of electricity of 12 cents per kWh and 10 units per site. Source: U.S. Department of Energy

Chameleon[®] EXG X

DIMENSIONS:

H: 32" x W: 37" x D: 7"
(H: 81.5cm x W: 94cm x D: 18cm)

WEIGHT: 22lbs (10kg)

COVERAGE:

Wall mounted: 1185-1400ft²
(110-130m²)

FINISH:

Stainless Steel
and Aluminum alloy

LAMP DATA:

- 2 x Quantum[®] X LED lamps
- Industry compliant FEP shatter-resistant coating
- Powered by a solid state LED driver

ENCLOSURE:

Exclusive borosilicate glass enclosure contains electrical energy to prevent a potential explosion and possesses an impact resistance rating of IK08 (passed 7 Joule impact test)

*Warranty excludes LED lamps and glue boards.
